CHILL TUBS°

CHILL TUBS / CHILL TUBS®

ESSENTIAL BATH

Chill Tubs Essential Bath: Chill Tubs® cold plunge.

The Chill Tubs Essential Bath is an oval inflatable cold plunge made from reinforced PVC. Its insulated body and included thermal lid help protect the water, and the manufacturer lists approximately 132 gallons of capacity and a 40 lb dry weight. Add ice to lower the water temperature; ask your showroom whether a compatible active chiller is offered separately. Compare its 61-inch length, entry height and surrounding access before choosing a spot.
