CHILL TUBS°

CHILL TUBS / CHILL TUBS®

ESSENTIAL POD

Chill Tubs Essential Pod: Chill Tubs® cold plunge.

The Chill Tubs Essential Pod is a round inflatable cold-plunge tub made from reinforced PVC. Its insulated walls and included thermal lid help shield the water, while a hose connection supports draining. The manufacturer lists approximately 132 gallons of water capacity and a 36 lb dry weight. Add ice for colder water; any compatible active chiller is a separate purchase to confirm with your showroom. Compare its round footprint, entry height and placement before ordering.

TECHNICAL SPECIFICATIONS

Dry Weight	**36 lb**
L x W x H	**39.37 x 39.37 x 35.43 in**
Shape	**Circle**

Specifications are compiled from published dealer and manufacturer records, checked 2026-09-14. Equipment, options and availability can change. Confirm the current configuration, dimensions and site requirements in your written showroom quote.

FEATURES & FINISHES

INFLATABLE REINFORCED PVC
Rigid, insulated walls when inflated; floor pump and repair kit are listed in the manufacturer package.

THERMAL LID
An insulated protective lid is included; it is not marketed here as a lock.

HOSE DRAIN
The manufacturer lists a hose-pipe drain connection.
