Platinum SPAS

PLATINUM SPAS / SWIM SPA

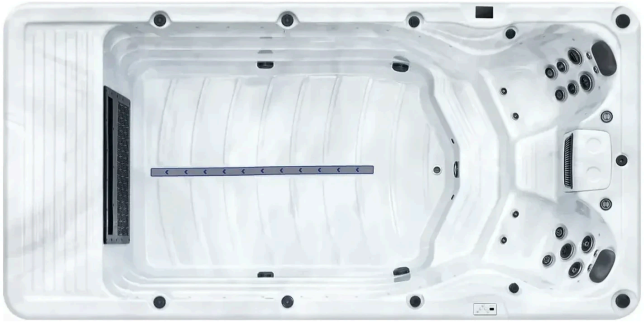

EROS PRO

Eros Pro pairs an adjustable swim current with two dedicated spa seats.

The Eros Pro keeps the 177.2-inch length and two spa seats of the original Eros, then changes the swim system to a 16-speed turbine. Its adjustable current suits swimming and gentle water movement without needing a longer shell. Compare the current feel and confirm delivery access and the selected power package before site work.
